ADVANCED LIBRARY CONTROL MANAGEMENT SOLUTIONS

UNLOCKING YOUR LIBRARY'S POTENTIAL

d-techinternational.com

WHAT IS accessIT™?

Due to the evolving demands and pressures to offer an extended service, with the use of technology D-Tech are able to allow use of the library in unmanned hours. accessIT™ allows the library the flexibility to open and close before and after manned hours. The library is automatically controlled and monitored out of operation hours, allowing registered patrons access to the library and use all of the library's services.

We understand that all libraries are individual and we can tailor accessIT™ to suit your needs.

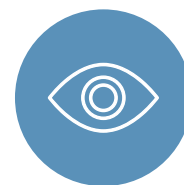

FEATURES

- Extended library opening hours for patrons, allowing libraries the ability to provide library services 365 days of the year with reduced costs
- Open your doors using the latest technologies.
- Community access for local activities
- Gives the patron a positive experience of the library.
- Opening doors to allow library services to open more libraries
- Budget friendly
- New staffing models

ACCESS CONTROL

Providing secure authorised access to users during un-staffed hours.

ACTIVITY MONITORING

CCTV monitoring and recording of all sites offering users a safe environment

CUSTOM CONFIGURATION

Complete customisation at the control panel allows for the changing environments.

LOCAL OR REMOTE CONTROL CENTRE

Central control interface can be accessed locally or remotely giving you full control

SCHEDULE SETUP

Fully configurable central control scheduler allowing full access to all sites.

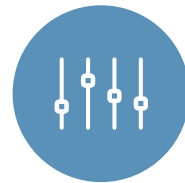

POWER & LIGHTING MANAGEMENT

Full control for automated power and lighting throughout your library.

PUBLIC ANNOUNCEMENTS

Powerful and fully customisable PA solutions to interact with your customers.

ADDITIONAL CONTROLS

Flexible solution giving ability to add other controls offering greater R.O.I.

UNLOCKING YOUR LIBRARY'S POTENTIAL

accessIT™ is an advanced library building management solution, enhancing the existing library infrastructure. accessIT™ allows you to automatically control the length of time that users can experience in a library.

The solution is capable of managing all services enabling extended unstaffed access on days and times of your choice. accessIT™ will allow your library service to evolve and extend into the community, providing an opportunity for new libraries to open and remain open longer.

For further information about how you can unlock your libraries potential with accessIT™ get in touch.
