## charging

SmartLine with PowaSave uses safe-charging cords specific to the make and model of your chosen device and does not require the AC adaptors that come with those devices. Its advanced PowaSave technology provides environmentally-friendly power savings by automatically sensing when devices are fully charged. It then stops charging to avoid wasting power, saving energy and costs. All devices are still charged simultaneously in the fastest possible time; safely, securely and without overcharging.

features

- •Expandable kiosk with small footprint
- •Safe charging and secure storage
- •Suitable for any make or model device
- •Available from 12 to 96 lockers on one touchscreen (scalable)
- •Barcode, Mifare, RFID and biometric card readers
- •Unicode language
- •Thermostatically-controlled temperature management system
- •LED charge status indicators
- •Connection to ILS via SIP2 (real time)
- •Meets all required safety standards and is fully CE certified
- •BYOD (bring your own device)
- •RAL powder-coated color choice
- •ADA-compliant lower lockers

options

- •Solo database
- •Integrated camera
- •Phone jack
- •Network compatible for data transfer
- •Deep Freeze licenses
- •USB-C charging
- •**reportIT™ (remote monitoring)**

This exclusive D-Tech software allows libraries to monitor check-ins, check-outs, what items are overdue and which ones have been returned. It records how much the kiosk is used and assures it's working properly. Statistics are collected regularly and can be viewed any time.

specifications

Per terminal unit:

Height	**6½ feet (77 inches)**
Width	**21 inches**
Depth	**21 inches**
Weight	**144lbs**
