secureIT™ M-Series security antenna system

secureIT™ M-Series

D-Tech's secureIT™ M-Series antenna system provides perimeter based protection and improves alarm handling capability for libraries where high cost antenna systems are not appropriate or where cost effective solutions are required.

Designed with a durable metal frame with simple and modern styling, the M-Series system provides a budget friendly deterrent without compromising functionality or quality.

Features:

- Compatible with D-Tech 13.56 MHz RFID labels and items tagged with approved labels from book suppliers including multi vendor reading (MVR). Allowing reading of other RFID labels.
- D-Tech's advanced digital RFID technology uses state of the art, digitally enhanced receiver to chip technology to ensure superior detection with false alarm free protection.
- Integrated alarm lights and sounder provide individual aisle identification through multiplexing.
- viewIT™ software application collates and identifies all alarm incidents, with connection and troubleshooting status to installed system. (RFID version only) .
- Mounts as a free standing unit or on a standard ramp.
- Alarm output to recording equipment and/or voice alarms available.
- Optional custom colours.
- Optional integrated people counter.
